The information required to file electronic claims is the same as for paper claims but there are major advantages to submitting electronic claims versus paper claims:

- You will reduce your overhead, electronically submitted claims can save hours of clerical time.
- You have better control and accuracy. Electronic claims are entered in the BCBSMT's system just the way they leave your office.
- You know when your claims are received because your office receives special reports detailing which claims were accepted. If there is a problem with your claim, you can correct it before the claim is processed.

To obtain more information on electronic claim filing, call 800-746-4614 or log on to bcbsmt.com.
