OWNERSHIP/CONTROL INFORMATION

*** NOTE: This section must be completed for each person who has a direct or indirect ownership and/or controlling interest in the entity and/or provider **type** specified on **page 8** of this **screening** application. This section must also be completed for each managing employee or agent of the enrolling entity and/or provider. All other provider types can skip to page 7.

Ownership interest means the possession of equity in the capital, the stock, or the profits of the disclosing entity (provider).

Indirect ownership interest means an ownership interest in an entity that has an ownership interest in the disclosing provider entity. The term includes an ownership interest in any entity that has an indirect ownership interest in the disclosing entity (provider).

A person with an ownership or control interest means a person or corporation that (a) has an ownership interest totaling 5% or more in a disclosing entity (provider); (b) has an indirect ownership interest equal to 5% or more in a disclosing entity (provider); (c) has a combination of direct and indirect ownership interests equal to 5% or more disclosing entity (provider); (d) owns an interest of 5% or more in any mortgage, deed of trust note or other obligation secured by the disclosing entity (provider) if that interest equals at least 5% of the value of the property or assets of the disclosing entity (provider); (e) is an officer or director of a disclosing entity (provider); that is organized as a corporation; or (f) is a partner in a disclosing entity (provider); that is organized as a partnership.

- (a) *Indirect ownership interest*. The amount of indirect ownership interest is determined by multiplying the percentages of ownership in each entity. For example, if A owns 10 percent of the stock in a corporation which owns 80 percent of the stock of the disclosing entity, A's interest equates to an 8 percent indirect ownership interest in the disclosing entity and must be reported. Conversely, if B owns 80 percent of the stock of a corporation which owns 5 percent of the stock of the disclosing entity, B's interest equates to a 4 percent indirect ownership interest in the disclosing entity and need not be reported.
- (b) *Person with an ownership or control interest.* In order to determine percentage of ownership, mortgage, deed of trust, note, or other obligation, the percentage of interest owned in the obligation is multiplied by the percentage of the disclosing entity's assets used to secure the obligation. For example, if A owns 10 percent of a note secured by 60 percent of the provider's assets, A's interest in the provider's assets equates to 6 percent and must be reported. Conversely, if B owns 40 percent of a note secured by 10 percent of the provider's assets, B's interest in the provider's assets equates to 4 percent and need not be reported.

Managing employee means a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts the day-to-day operation of an institution, organization, or agency.

An agent means any person who has been delegated the authority to obligate or act on behalf of a provider.

OWNERSHIP/CONTROL INFORMATION FORM					
At least one person must be added as owner. For multiple owners, please copy this form and complete one form for each owner.
